FOUNDED 1796
NELSON LANCASHIRE ENGLAND

Albini .1876.

Albini .1876.

The art of creating fabrics by interpreting 100% Made in Italy taste, thanks to the superior raw materials, continuous research and attention to every detail.

100% Italian taste, textile know-how, creativity and continuous research are the distinctive features that set Albini 1876 apart, the Group's historic brand which, for over 140 years, has been delivering collections that meet all the most demanding market requirements. Given their Made in Italy design and manufacturing with cutting-edge machinery and state-of-the-art technology, the Albini 1876 fabrics have a history of pure excellence. The essence of the brand is brought to life by the research conducted on the rarest and most precious cottons and linens across the world, combining tradition, elegance and craftsmanship. This important textile know-how is interwoven with a strong creative vision, expressing a contemporary and deep-rooted Italian taste. Graphics, structures and colours are renewed every season, becoming the benchmark for fashion trends whilst inspiring designers, fashion houses, tailors and retailers across the globe. From a classic and sophisticated mood to a more contemporary version, all the Albini 1876 fabrics are surprisingly eye-catching and innovative, representing the excellence of Made in Italy all over the world.

The essence of the quality of Yoga fabrics begins with the choice of precious and exclusively natural raw materials.

Their secret is an innovative treatment that gives the fabric a natural elasticity, without the use of synthetic materials.

Yoga is a breathable and durable fabric that maintains its elasticity over time, even after numerous washings.

With its British inspiration flaunting an eccentric and refined touch, Thomas Mason has always represented a stylistic revolution and timeless elegance.

Lancashire, 1796: the core of the English Industrial Revolution. This is the historical background of a brand that since then has continued to weave new stories of elegance and style, becoming the reference point in the world of men's tailoring. The Thomas Mason collection boasts the use of double twisted fabrics made with the finest extra-long staple yarns in the world, capable of reinterpreting and revolutionising the stylistic canons of every era, without losing that eccentric touch and the British taste that never seems to go out of fashion. Thomas Mason flaunts a timeless elegance, in which the meticulous attention to quality and details is flanked by continuous research and experimentation. Creativity and innovation have in fact given life to an immense historical archive of inestimable value, in which bright colours accompany refined and sometimes eccentric designs and patterns. The strictly British imprinting of these historic fabrics is now reinterpreted on trendy and innovative bases, generating new rules of elegance and style for the contemporary gentlemen.
