FLAMENCO

THE ART OF CLOTHS

FLAMENCO is an emerging designer fabric brand, specializing in serving the private handmade shirt haute-couture market. It grasps each elements accurately every season and translates it into the current fashion trend.

Each season, not only the patterns and colors in line with trends, it also focuses on the quality of the fabric.

Many shirt brands use single yarn (or single yarn in one direction and double yarn in one direction) to weave in order to reduce cost.

Flamenco, except for the special needs of fabric style , over makes 95% of fabrics are woven with double yarns in warp and weft direction (the so-called "double warp and double weft"), generally using 100/2x100/2, 120/2x120/2, and 120/2x120/2.

Compared with 50x50, 60x60, 70x70 and other single yarn fabrics, double yarn fabrics have better shape retention and durability.

FLAMENCO

THE ART OF CLOTHS

Linen Series

Linen fiber has the function of temperature regulation and moisture absorption, suitable for spring and summer clothing. Linen shirt will increase the breathable, cool, dry feeling. The fabric using the "air washing" process, so that the fabric is softer, skin-friendly, overcoming the stiffness and prickly feeling of ordinary, increasing the perception of comfort.

THE ART OF CLOTHS

Leno Series

The series is made of leno fabric, which is popular recently. The mesh structure is cool and breathable. The fabric is relatively high in gram, so the shirt has good shaping, meanwhile the fabric is softened to improve the roughness of this kind of fabric.
